

Vehicle Delivery Inspection Form

If your vehicle has been delivered by a transport company, we recommend conducting a thorough inspection upon arrival. In the event that any damage may have occurred during transit, it is important that the delivery driver records the damage at the time of delivery. Additionally, any such issues must be reported in writing to the transport company within 2 days.

Should you identify any concerns upon delivery, please report this immediately to Freedom Motors Australia so we can assist with the claims process on your behalf.

We recommend you complete this form on arrival of your vehicle to record any issues.

Customer Name: _____

Date of Delivery: _____

Job Number: _____

Exterior Vehicle Condition Check
